Prof. Price Will Make a Balloon Ascent—Jumps at 5000 Feet.

On Saturday next, the 22d, Prof. James W. Price, the balloonist and parachute jumper, will make an ascent at Remond Grove. At the height of 5000 feet he will cut loose from the balloon and descend by means of the parachute.

The Professor does not use a basket; he goes up performing on a trapeze, and does some marvelous feats in mid-air. He has given exhibitions before a number of the crowned heads of the East and in Europe, and has his breast covered with medals which have been given him in different parts of the world.

There will be two trains to Remond Grove, which will arrive there in ample time to see the ascent, and as the price for the excursion, including admission to the place where the balloon will start from, is only 75 cents, there should be a very large attendance. An excursion to this delightful spot is pleasant under any circumstances, and with the addition of the strange sights which Prof. Price will unfold to the gaze of the people, the crowd should be very large.

The Evangelists.

"The Great Physician" was Evangelist Romig's subject last night, and the basis of his remarks was the third chapter of John, 14th and 16th verses, "And as Moses lifted up the serpent in the wilderness, even so must the son of man be lifted up, that whosoever believeth in Him shall not perish, but have eternal life."

He prefaced the sermon by the statement that a great deal was lost by those reading this text in the King James version rather than in the revised, which changes the sense of the text in a very important feature, namely, that "whosoever believeth may in Him have eternal life." The difference between the two readings is obvious. "It is well," said he, "to look carefully through the acts of Apostles and the Epistles to find out how to get unto Christ. The question is, How and why did Moses lift up the serpent in the wilderness? The Israelites were not permitted to enter the promised land, because they failed to improve the time. They spent it in sin and rebellion against God, and when they came down the western slope of Mt. Edom they were weary, footsore and despondent, and began to murmur and to blame God and Moses, when in fact it was their own disobedience and rebellion that had brought them under the hand of affliction, and now death stared them in the face."

The singing by Prof. Harrell was exceptionally fine. The church was crowded.

Reception Today.

United States Minister Willis and Mrs. Willis will give a public reception at the Legation at 4 o'clock this afternoon to Brigadier-General R. H. Warfield, N. G. C., Surgeon Munn, Lieutenant Lissak, Lieutenant Newcombe and Lieutenant Treat, U. S. A. Mrs. Treat, Mrs. Munn and Mrs. Newcombe will assist Mrs. Willis.

The little daughter of Mr. Fred Webber, Holland, Mass., had a very bad cold and cough which he had not been able to cure with any thing. I gave him a 25 cent bottle of Chamberlain's Cough Remedy, says W. P. Holden, merchant and postmaster at West Brimfield, and the next time I saw him he said it worked like a charm. This remedy is intended especially for acute throat and lung diseases such as colds, croup and whooping cough, and it is famous for its cures. There is no danger in giving it to children for it contains nothing injurious. For sale by all druggists and dealers. BENSON, SMITH & Co., agents for H. I.

FILTERS.

The report of the executive officer of the Board of Health relative to the condition of the Nuuanu reservoirs is suggestive of something dangerous to health. It also suggests filters, good filters, something that will effectually separate the water from mud and filth.

Nature has done much toward providing the people with necessities; it has also done a little toward securing for the people, luxuries. In some localities a filter is a luxury, in others, Honolulu for instance, it is a necessity, but the natural filters that are sold have been much improved by the ingenuity of man.

Charcoal is admitted to be the most thorough purifying agent known, consequently Messrs. Slack & Brownlow selected it for use in the manufacture of their filters. And we are the agents for this particular brand of filter in Honolulu, a sufficient guarantee, by the way, of the character of the article.

The latest invoices show three different styles of the S. & B. Filters and these we have in stock, just opened them, in fact, and we want your attention.

No. 1, (we will call it No. 1) is fitted with a movable plate, so that when necessary, the carbon may be taken out and washed. It has also a movable lining allowing access to every part of the interior, which may be kept perfectly sweet and clean.

No. 2 and 3 are provided with the same conveniences for cleaning as the other, but they have the important addition that every part, including the pure water chamber, is accessible, giving them all the requirements of a "Perfect Filter."

The price of the S. & B. filter is below the others. You should have one, because it is a necessity.
